

The prospect of losing KLOVE as an option to talk radio or just plain lousy music is a bit frightening. We need KLOVE to stay on the air! It's one of the few stations that provide quality programming that my family and i have come to expect. Information on current events and upcoming attractions keep us well informed.

Fewer choices on the dial mean that i simply listen to less radio. The positive message of KLOVE is vital to our community. I would ask that it be allowed to continue to serve to public well.

Sincerely,

GM Ellis
